

MOHAMED ALABIYA

Full Stack Developer & Software Engineer

dev@q5.qa +966553646841 github.com/6lj LinkedIn Profile Social Media Projects & Certs Page

PROFESSIONAL SUMMARY

Full Stack Developer with BS in Computer Science. Expert in web/mobile development, cybersecurity, reverse engineering, and ML. Built scalable e-commerce platforms and mobile applications. Skilled in server management, cloud tech, and security tools

CORE TECHNICAL SKILLS

Languages - JavaScript, Python, Java, PHP - C#, Objective-C, Kotlin, Lua, Dart	Frameworks & Libs - React.js, Node.js, Spring Boot - Flutter, Angular, Vue.js, Django, Laravel
Databases & Cloud - MySQL, PostgreSQL, MongoDB - SQLite, Firebase, Redis, Docker, AWS	ML, Cybersecurity & DevOps - Vulnerability Scanning, Metasploit, Nginx - Mobile Security, Reverse Engineering, API Security - Clustering, Generative AI, TensorFlow, CI/CD, Git

KEY PROJECTS & EXPERIENCE

Computer Science Specialist - Abaja Contracting (Tamheer, Jul 2025 - Present) Improved server and application responsiveness, managed database transfers, generated reports, optimized response requests, and created an electronic folder system. <i>MySQL, Python, JavaScript, Server Management</i>
Cybersecurity Trainee - Delta Line (Sep 2025) Used Metasploit, Nmap, and manual testing to enhance system security by identifying vulnerabilities. certificate. <i>Nmap, Metasploit, Network Analyzers, Manual Testing</i>
Senior Full Stack Developer - RXOstore Built e-commerce platform with high availability and optimized performance. <i>PHP, MySQL, JavaScript, Docker, Nginx</i>
Mobile Security Specialist - APK/IPA Mods Developed mobile security solutions and reverse engineering tools. <i>Lua, Objective-C, Java, Kotlin, Reverse Engineering</i>
Software Engineer - AI/ML Integration Built ML-driven systems for UX and security enhancements. <i>Python, TensorFlow, JavaScript, PostgreSQL, APIs</i>

EDUCATION & CERTIFICATIONS

AI for Executives: The Basics (Khalifa University) Nov 2025	BS, Computer Science Najran University (NU) - GPA 3.5/5	June 2025
Advanced Supervised Machine Learning: Regression and Classification (DeepLearning.AI) Oct 2025	AWS Cloud Technical Essentials (Amazon Web Services) Oct 2025	
Foundations of Cybersecurity (Google) Oct 2025	Android Mobile Application Development (Meta) Oct 2025	
Introduction To Swift Programming (University of Toronto) Oct 2025	Fundamentals of Artificial Intelligence and Big Data (Alfaisal University) Oct 2025	
Building Machine Learning Models (Harvard University) Aug 2025	Data Analysis: Basic Probability and Statistics (Harvard University) Sep 2025	
MySQL for Data Engineering (Duke University) Aug 2025	DDoS Attacks and Defenses (University of Colorado) Sep 2025	
Cybersecurity Assessment: CompTIA Security+ & CYSA+ (IBM) Sep 2025	Foundations of Coding Full-Stack (Microsoft) Nov 2025	
iOS Mobile Application Development (Meta for Work) Sep 2025	CompTIA Data+ (Infosec) Sep 2025	
	Clustering Models with Azure ML (Microsoft) Aug 2025
