SUMMARY

Full Stack Developer with a Bachelor's degree in Computer Science from Najran University (NU, 06/2025). Proficient in building end to end solutions, including launching online stores, modifying mobile applications (Android and iOS), and developing comprehensive web applications. Skilled in server management, data storage, and data presentation with a strong algorithmic approach to deliver cost-effective, high-quality solutions. Capable of independently establishing and operating efficient online commerce systems with expertise in server-side, client-side, backend, and frontend development. Experienced in fingerprinting technology for device identification and security.

EDUCATION

National University (NU)

Bachelor's in Computer Science | 06/2025

CERTIFICATIONS

- Full Stack Web Development (Professional Certificate) - [View Certificate](#)
- Diploma in Information Technology Management (Alison) - [View Certificate](#)

SKILLS

• Programming Languages:

- Lua (Serious - Used in Android APK)
- Objective-C (Serious - Used in iOS IPA)
- HTML/CSS (OK - Web development)
- PHP (OK - Backend development, PHP Pure)
- C++ (Not Good - Used in Android NDK)
- C# (OK - Used for Android offsets)
- Python (Serious - General-purpose, scripting)
- JavaScript (Serious - Web development)
- Dart/Flutter (OK - Cross-platform mobile apps)
- Java (OK - Android development)
- Kotlin (OK - Modern Android development)

• Frameworks/Databases:

- Node.js (Serious - Backend development)
- React.js (Serious - Frontend development)
- Spring Boot (OK - Java-based backend development)
- MySQL (Serious - Relational database)
- SQLite (Serious - For Apps Mpbile ios and Android)
- PostgreSQL (OK - Relational database)
- MongoDB (OK - NoSQL database)
- LocalStorage (Serious - Client-side storage)
- Firebase (OK - authentication)
- Docker (OK - Use Java image in website and apps)

• Additional Skills:

- Server Management (Nginx, Apache)
- Server-Side & Client-Side Development
- API Development & Integration
- Android APK Modification
- iOS IPA Modification
- Browser Fingerprinting
- Video Editing (Adobe Premiere, After Effects)
- Photoshop (Adobe Photoshop)

PROJECTS

- Android App Modifications (Lua, C#, Java, Kotlin):**
- [Polywar-GG-1.0.0-lua](#) - Lua script for modification. [View Code](#)
- [Modified app](#) - Unlocked characters using Lua scripts. [View Code](#)
- [Bloons TD 6](#) - Comprehensive game hack for all features. [View Code](#)
- [Modified app](#). [View Code](#)
- [Allocate Memory Script \(Write\) 1.0.0](#) - Memory allocation script for Android apps. [View Code](#)
- [Hill Climb Racing 2](#) - Modified app. [View Code](#)
- iOS App Modifications (Objective-C):**
- [PotatoVPN](#) - Modified app. [View Code](#)
- [GoArt](#) - Modified app. [View Code](#)
- [Meitu](#) - Modified app. [View Code](#)
- Web Development (HTML, CSS, PHP, MySQL, Node.js, SQLite, Java, Docker, PostgreSQL, MongoDB, React.js, Flutter, Spring Boot):**
- [Project2-NU-Database-And-php](#) - Database-driven web app with PHP and MySQL. [View Code](#)
- [RXQstore](#) - online store. [View Code](#)
- [Project-Questions](#) - Interactive Q&A platform. [View Code](#)
- [Quran-Encyclopedia](#) - Quran Encyclopedia. [View Code](#)
- [RXO-Calculator-KSA](#) - Financial calculator for KSA. [View Code](#)
- [Polywar Website](#) - Game mod menu website. [View Code](#)
- [sendmessageandshow](#) - Messaging platform with Node.js and SQLite. [View Code](#)
- [UML AI](#) - AI-driven UML diagram generator. [View Code](#)
- [Task Manager](#) - Task management app with React.js. [View Code](#)
- [Rate-your-doctor](#) - Doctor rating platform. [View Code](#)
- [TV channel](#) - Streaming platform for TV channels. [View Code](#)
- [Social Media Page](#) - Social media platform prototype. [View Code](#)
- [1day-project](#) - Rapid prototype with Node.js, SQLite, and React.js. [View Code](#)
- [Device-Fingerprint](#) - Browser fingerprinting for device identification and security. [View Code](#)
- [Personal CV Website using ai \(API\) and database for chat live](#) - Interactive portfolio showcasing skills and projects. [View Code](#)
- [for View certification](#) - A web application to browse and view PDF Files stored in the `Certs` directory [View Code](#)
- [PlantUML Viewer](#) - A web application that introduces a new algorithm for displaying UML diagrams using PlantUML. [View Code](#)
- Player Implementations (Video, Music, Live):**
- [Quran-Encyclopedia](#) - Video player for Islamic content. [View Code](#)
- [TV channel](#) - Live streaming player implementation. [View Code](#)
