

MOHAMED ALABIYA

Full Stack Developer & Software Engineer

✉ dev@q5.qa ☎ +966553646841 🐙 github.com/6lj 🌐 [LinkedIn Profile](#) ✓ [Social Media](#) ⓘ [Projects & Certs Page](#)

PROFESSIONAL SUMMARY

Full Stack Developer with BS in Computer Science. Expert in web/mobile development, cybersecurity, reverse engineering, and ML. Built scalable e-commerce platforms and 100+ app mods. Skilled in server management, cloud tech, and security tools

CORE TECHNICAL SKILLS

 Languages - JavaScript, Python, Java, PHP - C#, Objective-C, Kotlin, Lua, Dart	 Frameworks & Libs - React.js, Node.js, Spring Boot - Flutter, Angular, Vue.js, Django, Laravel
 Databases & Cloud - MySQL, PostgreSQL, MongoDB - SQLite, Firebase, Redis, Docker, AWS	 ML, Cybersecurity & DevOps - Vulnerability Scanning, Metasploit, Nginx - Mobile Security, Reverse Engineering, API Security - Clustering, Generative AI, TensorFlow, CI/CD, Git

KEY PROJECTS & EXPERIENCE

 Computer Science Specialist - Abaja Contracting (Tamheer, Jul 2025 - Present) Improved server and application responsiveness, managed database transfers, generated reports, optimized response requests, and created an electronic folder system. <i>MySQL, Python, JavaScript, Server Management</i>
 Cybersecurity Trainee - Delta Line (Sep 2025) Used Metasploit, Nmap, and manual testing to enhance system security by identifying vulnerabilities. certificate. <i>Nmap, Metasploit, Network Analyzers, Manual Testing</i>
 Senior Full Stack Developer - RXOstore Built e-commerce platform for 10,000+ users with 99.9% uptime and 40% faster loads. <i>PHP, MySQL, JavaScript, Docker, Nginx</i>
 Mobile Security Specialist - APK/IPA Mods Reverse-engineered 100+ mobile apps; tools used by 50,000+ users. <i>Lua, Objective-C, Java, Kotlin, Reverse Engineering</i>
 Software Engineer - AI/ML Integration Built ML-driven systems for UX and security enhancements. <i>Python, TensorFlow, JavaScript, PostgreSQL, APIs</i>

EDUCATION & CERTIFICATIONS

 BS, Computer Science Najran University (NU) - GPA 3.5/5	 AWS Cloud Technical Essentials (Amazon Web Services)
 AI & ML Applications in Oil and Gas Industry (L&T EduTech)	 Android Mobile Application Development (Meta)
 Advanced Supervised Machine Learning: Regression and Classification (DeepLearning.AI)	 Fundamentals of Artificial Intelligence and Big Data (Alfaisal University)
 Foundations of Cybersecurity (Google)	 Data Analysis: Basic Probability and Statistics (Harvard University)
 Introduction To Swift Programming (University of Toronto)	 DDoS Attacks and Defenses (University of Colorado)
 Building Machine Learning Models (Harvard University)	 Generative AI (Google Cloud Skills Boost)
 MySQL for Data Engineering (Duke University)	 CompTIA Data+ (Infosec)
 Cybersecurity Assessment: CompTIA Security+ & CYSA+ (IBM)	 Clustering Models with Azure ML (Microsoft)
 iOS Mobile Application Development (Meta for Work)
